Problem Set

Chapter 1

JEE Mains Problems

Q1: A planet (P_1) is moving around a star of mass $2M$ in the orbit of radius R . Another planet (P_2) is moving around another star of mass $4M$ in a orbit of radius $2R$. Ratio of time periods of revolution of P_1 and P_2 is :

[JEE Mains 2nd April 2026 Shift 1]

(A) $\frac{1}{2}$

(B) 2

(C) 4

(D) $\frac{1}{4}$
