Chapter 1

JEE Mains

Q1: If the point of intersection of the lines $\frac{x+1}{3} = \frac{y+a}{5} = \frac{z+b+1}{7}$ and $\frac{x-2}{1} = \frac{y-b}{4} = \frac{z-2a}{7}$ lies on xy-plane, then the value of a + b is :
[JEE Mains 2nd April 2026 Shift 1 Q13]

- (A) 2
- (B) 5
- (C) 7
- (D) 9
